

BelgrAde Summit of Interventional Cardiologists ^{5th}

Clinically Integrated Approach

Poštovane kolegice i kolege,

početkom rada Lekarske komore Srbije, svi zdravstveni radnici su u obavezi da za obavljanje svoje delatnosti poseduju licencu za rad. Licenca se prvi put izdaje svim lekarima koji su se prijavili, na period od sedam godina. Jedan od neophodnih uslova za obnavljanje licenci jeste i kontinuirano stručno usavršavanje lekara putem učešća na kongresima, simpozijumima, kursevima, studijskim boravcima, stručnim sastancima i objavljivanjem publikacija. Prema Pravilniku o bližim uslovima za izdavanje, obnavljanje ili oduzimanje licence članovima komora zdravstvenih radnika (objavljenom u „Službenom glasniku RS“, br. 119/2007 od 14.12.2007. godine), neophodno je za obnavljanje licence steći minimum 168 bodova, odnosno, po 24 boda za svaku kalendarsku godinu. Jedna polovina godišnje ukupne sume bodova (tj. 12 bodova) dobija se u okviru programa kontinuirane edukacije koji se sprovode u zdravstvenoj ustanovi ili privatnoj praksi u kojoj je zdravstveni radnik zaposlen. Druga polovina godišnje ukupne sume bodova (12 bodova) dobija se kroz učešće na eksternim programima kontinuirane edukacije koji se sprovode van zdravstvene ustanove i privatne prakse u kojoj je zdravstveni radnik zaposlen i može biti na republičkom ili međunarodnom nivou, kao i kroz druge oblike kontinuirane edukacije.

Potvrdu o učestvovanju za sve učesnike programa izdaje organizator akreditovanog programa. **BASICS+ (BelgrAde Summit of Interventional Cardiologists) je akreditovan od strane EBAC (European Board for Accreditation in Cardiology) sa 24 boda. Na ovaj način, učestvovanjem na kongresu BASICS+, pored prilike da čujete najaktuelnije teme u svetskoj kardiologiji od strane najeminentnijih svetskih eksperata, možete steći 24 boda neophodna za proces obnavljanja licence u Lekarskoj komori Srbije.**

Simpozijum "INOVA CIJA ZNANJA 2009": tabelarni program

Dear colleagues,
Upon successful completion of the four BASICS+ (BelgrAde Summit of Interventional Cardiologists): Clinically Integrated Approach, held in Belgrade in 2005, 2006, 2007 and 2008, and two CTO mini-summits with live transmissions of almost 160 patients to the audience of 300 internists/cardiologists, with an excellent success and, unfortunately one fatal complication, there is no more dilemma that we have simply to continue the same way and organize such an event on a yearly basis. The success of the previous workshops was complete not only in respect to the care rendered to the patients, but also in respect to education and exchange of experience. Strengthening and developing of new friendships over 3 continents resulted in the third, not less important, dimension of such a meeting. Benevolence and generosity of the most recognized interventional cardiologist to participate as operators, lecturers or commentators, even to bring and donate their PCI tools not available in our catheterization laboratories was impressive and unforgettable.

Like previous BASICS+ 2008, this year's BASICS+ 2009 is recognized and awarded by EBAC (European Board for Accreditation in Cardiology) with 24 hours of external CME credit hours, and we hope that the quality of the BASICS+ will be also continued and recognized in years to come. During the following BASICS+, we will organize a training course on bifurcations, and will further develop this attractive and useful means of education.

As the key feature of our workshops is clinically integrated approach, we shall continue to present and follow all the patients. By doing so, we are trying to attract and exchange ideas about patients' wellbeing with the doctors who are not interventional cardiologists, but are referring patients and are taking care of them post intervention.

We believe that our meeting will further promote knowledge of cardiovascular disease and stimulate further investigation. The previous four BASICS+ and everyday practice have also shown that the Serbian Cardiology is ready to be an equal partner in investigational efforts worldwide.

Miodrag Ostojic M.D. Ph.D.

Miodrag Ostojic, M.D., Ph.D., FESC, FACC

Clinical Center of Serbia
President of the Cardiology Society of Serbia

INFORMATION ON EBAC ACCREDITED PROGRAMME

The learning objectives of the BASICS+ are:

- education of interventional cardiologists
- to update physicians' knowledge with the latest evidence-based concepts in interventional cardiology
- to train interventionalists in treatment of difficult lesions' subset

The targeted audience is interventional cardiologists/radiologists, as well as general cardiologists, internal medicine specialists and other physicians interested in interventional cardiology and adjunctive treatment of patients undergoing interventional procedures.

The "BASICS+ : 5th BelgrAde Summit of Interventional CardiologistS plus" is accredited by the European Board of Accreditation in Cardiology (EBAC) for 24 credit hours of External CME credits

Each participant should claim only those hours of credit that have actually been spent in the educational activity. EBAC works in cooperation with the European Accreditation Council for Continuing Medical Education (EACCME), which is an institution of the European Union of Medical Specialists (UEMS).

In compliance with EBAC/ EACCME guidelines, all speakers/ chairpersons participating in this programme have disclosed potential conflicts of interest that might cause a bias in the presentations. The Organising Committee is responsible for ensuring that all potential conflicts of interest relevant to the programme are declared to the audience prior to the CME activities.

Symposium "Inovacija znanja 2009" in Serbian, that is organized from April 6-7, 2009, is not included in EBAC accreditation. Only BASICS+ is accredited by EBAC.

The "BASICS+ : 5th BelgrAde Summit of Interventional CardiologistS plus" is accredited by the European Board of Accreditation in Cardiology (EBAC) for 24 credit hours of External CME credits

Each participant should claim only those hours of credit that have actually been spent in the educational activity. EBAC works in cooperation with the European Accreditation Council for Continuing Medical Education (EACCME), which is an institution of the European Union of Medical Specialists (UEMS).

BASICS+: Programme at-a-Glance

time	Sunday, April 5	Monday, April 6	Tuesday, April 7	Wednesday, April 8
8:30-12:00	LIVE SESSION 1 chairpersons: W. Wijns, F. Eberli commentators: L. Finci, A. Manginas, P. Seferovic, Z. Plazonic, R. Jung - case 1 (O. Katoh) - case 2 (G. Sianos) - case 3 (O. Katoh) - case 4 (J. Ge) - case 5 (A. Doganov)	LIVE SESSION 3 chairpersons: J. Ge, W. Wijns commentators: V. Ambrosini, N. Milicic, Z. Perisic, R. Babic - case 10 (O. Katoh) - case 11 (G.
